Automated Collection

Belmont's new recycling and solid waste provider, Waste Pro, uses fully automated collection vehicles which operate a mechanical arm to lift the carts. *(Increasing collection efficiency and reducing recycling cost – saving the City valuable tax dollars)*

Roll-Out Carts

The new 96-gallon roll-out carts hold more, have a lid to prevent littering, and are easier for residents to maneuver. New carts will be delivered to each resident at no cost. Do not begin using your new cart until July 5. *(Due to the new automated collection process, old bins can not be used beginning July 5. Keep your old bin or place it beside your recycle cart to be collected and recycled into new carts)*

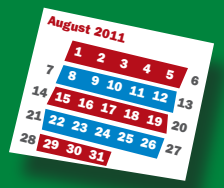
- *Place carts with wheels facing your home.*
- *Keep carts 2 feet from one another and 2 feet from parked cars, mailboxes, etc.*
- *Do not block sidewalks with carts.*

Every Other Week Collection

Collection of Yard Waste and Recycling will remain the same day as your garbage collection, but picked up every other week—saving tax dollars and reducing air pollution *(you'll receive a schedule)*.

Yard Waste

Place loose Yard Waste in clear plastic bags. Maximum limb size: 6 feet in length and 12 inches in diameter.



Recycling

The new roll-out carts hold 5 times more than the old bins, enabling every other week collection.

Yard Waste red

Recycling blue

Is it really trash?

Consider donating items that are in good condition or are repairable.

(Many organizations find good homes for unwanted items)
