What is a Zoning Map Amendment?

The zoning district for a property designates the type of uses permitted on a property (i.e. residential, commercial, industrial, etc.) and certain development standards. An overlay zone is a zoning district applied over one or more previously established zoning districts establishing additional or stricter standards and criteria for covered properties in addition to those of underlying districts.

A zoning map amendment is the process to change the zoning district for a property from one district to another district. The Belmont Planning and Zoning Board reviews zoning map amendment applications and provides a recommendation to the Belmont City Council who makes the final decision in a public hearing.

The documentation on the proposed changes is available for viewing from 8:00 am until 5:00 pm, Monday – Friday at the Belmont Planning Department located at 37 N. Main Street, Belmont. The proposed site plan associated with this project is provided on the backside of this notice.

South Point Peninsula Overlay District is intended to implement Belmont’s Comprehensive Land Use Plan dated 2007 which established densities between 1 to 3-du/acre. This overlay would establish by right the minimum lot size, setbacks, and dimensional requirements listed below. Any exceptions to these requirements may be considered through a Conditional Zoning District.

Minimum lot size: 15,000 sq. ft.

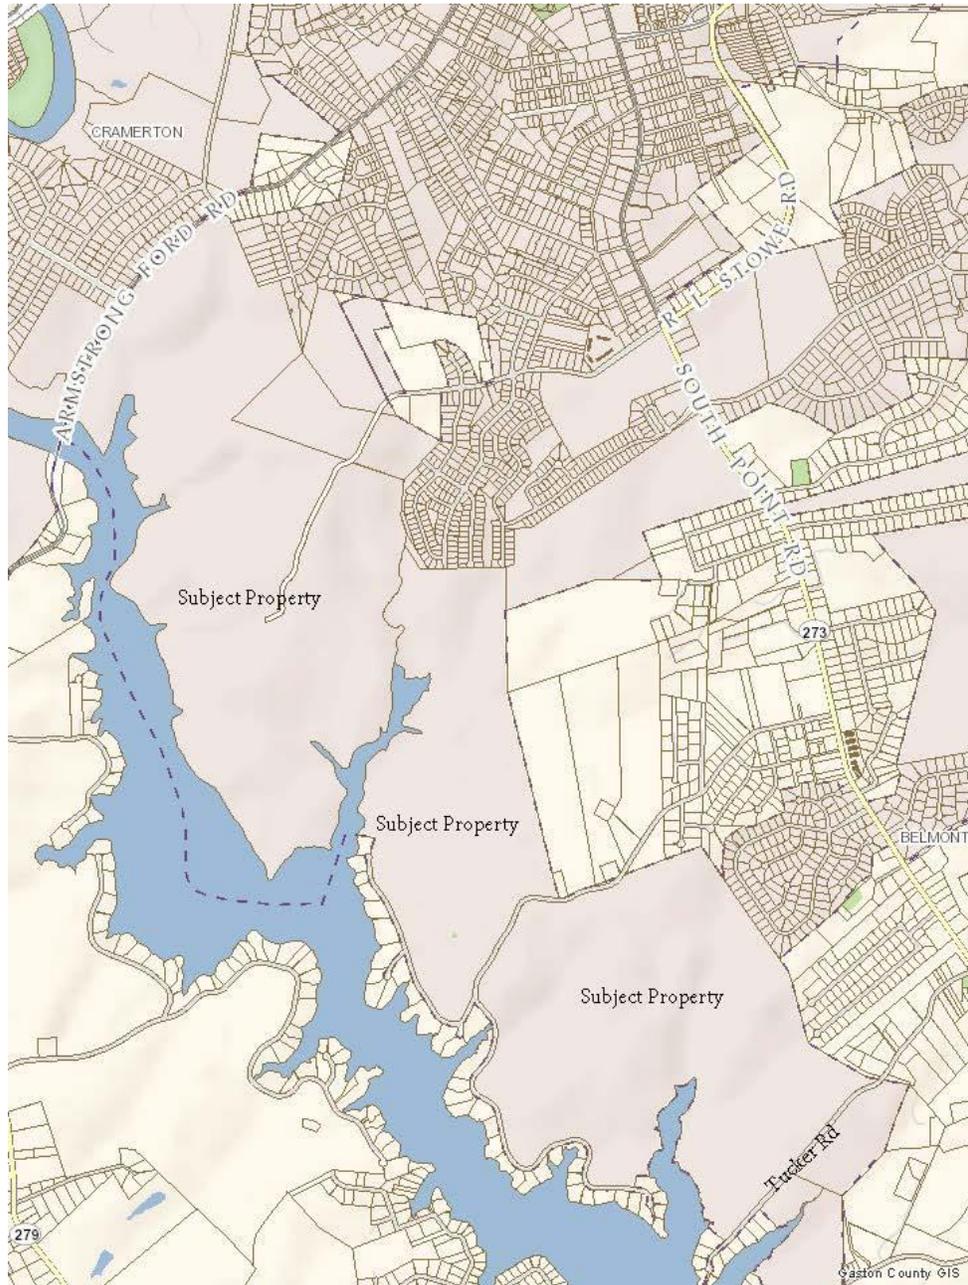

Minimum lot width: 90-feet

Setbacks:

Front 30-feet

Side 12-feet

Rear 30-feet
